August 10th, 1920

Prof. E. Schiapparelli  
Dir. R. Museo di Antichita  
Torino, Italy

Dear Sir:

In connection with a study begun some time ago on the coinage of Metapontum, I shall appreciate it very much if I might have a photograph of the coins of this city in the Collection under your care. Might I trouble you to have a photograph made at my expense showing obverse and reverse of these pieces?

The description given by Fabretti is more careful than usual, but it does not go sufficiently into detail and I am, therefore, obliged to request your kind offices.

Very respectfully yours,

Secretary
